

Sharing Folders

Overview

Folder sharing allows you to provide others with access to specific items within your account. You can choose to share:

- Mail folders
- Address books
- Calendars
- Briefcase folders
- Task lists

You determine which items to share and the level of access (view-only, manage, etc.).

When you share an item, the recipient receives an invitation and can choose to accept or decline.

Sharing Your Account Folders

To share a folder:

1. **Right-click** the folder you want to share.
2. Select **Share Folder**.
3. Choose the **type of access** (viewer, manager, etc.) and enter the recipient's email address.
4. Click **OK** to send the sharing invitation.

The recipient will receive an email with the option to accept or decline the shared folder.

Finding Items Shared With You

If you haven't received an email notification about a shared item, or your organization shares folders publicly, you can manually search for shared items.

To find shared folders:

1. In the **Mail** tab, go to the **Overview pane**.
2. Click the **gear icon** next to **Mail Folders**.
3. Select **Find Shares**.
4. In the **Add Shared Folder** dialog:
 - Select any listed item that hasn't been accepted yet,
or
 - Enter an email address in the **Find Shares** field to search for items shared from that address.
5. From the **Include** drop-down menu, choose the application(s) you want to search:
 - Mail
 - Calendar
 - Contacts
 - Briefcase
 - Tasks
 - Or select **All applications** for a full search.
6. Click **Search**.
7. Select the shared items you want to access.
8. Click **Add** to add them to your account.
